STATISTICS OF CLASS I MOTOR CARRIERS, 1948

INTRODUCTORY STATEMENT

The Interstate Commerce Commission under authority of Section 220 of the Interstate Commerce Act requires Class I common and contract motor carriers to file quarterly and annual reports. Beginning with 1948, Class II and Class III carriers also were required to file annual reports.

This summary of statistics compiled from the annual reports filed by Class I motor carriers for the year 1948, is the eleventh of a series which began for the year 1938. In general, it is similar to that for 1947, except that changes have been made in the items of several tables to reflect the modifications made in the accounting classifications and in the report form. Separation of a number of expense items between line haul and pickup and delivery operations, shifting of pickup and delivery of expense items from the "Terminal" to the "Transportation" group of operation and maintenance expenses, separate statement of certain important items of terminal expense, and a distinction between ordinary and extraordinary income items are some of the changes which resulted from the modifications of schedules relating to property carriers.

A number of other changes will be found in this compilation, the most important of which are: (1) Separate tables detailing information for common carriers of commodities other than general freight, contract carriers, and local carriers of property have been omitted, and in their place summaries of selected financial and operating data have been added (tables 27, 28, and 33); (2) the summaries of selected items for individual carriers now are limited to those carriers having annual abstracts of selected items for individual carriers now are limited to those carriers having operating revenues over \$1,000,000 (heretofore these abstracts covered carriers having operating revenues over \$500,000); (3) information relating to revenue equipment is now limited to equipment acquired, and equipment retired, during the year, and that owned at the close of the year; (4) the data for common carriers of commodities other than general freight are now shown separately for those carriers reporting revenue ton-miles in table 29; and (5) investment securities, dividend income, and interest income appearing in tables 1, 2, and tables detailing balance-sheet and income items are now shown as single items without subdivisions to reflect separately for motor carriers and for others.

The carriers' reports have been examined in the Bureau of Accounts and Cost Finding and the corrected reports form the basis of the present tabulation.

A Class I carrier in 1948 was one having gross operating revenues (including interstate and intrastate) of \$100,000 or over annually, from motor carrier operations.

The revenues and other data reported by the carriers relate to their entire operations, including intrastate operations, if any. In some cases, the revenues from the latter operations considerably exceed those derived from transportation in interstate commerce.

According to Bureau estimates, Class I carriers of property in 1948 received about 70 percent of the total revenues of intercity and local carriers of property of Classes I, II and III and Class I carriers of passengers accounted for about 91 percent of the revenues of motor carriers of passengers (see Statement No. 490 for discussion of method used in making these estimates). The revenues of carriers of both property and passengers were included in deriving these percentages. Data for these carriers given in tables 57 and 58 should be considered in obtaining complete data on various subjects for either or both property and passenger carriers.

As may be seen from the table of contents, the Class I carriers have been segregated, for the purposes of the present compilation, into three groups: Carriers of property, carriers of passengers, and carriers of both property and passengers. The first two groups have been subdivided to show returns separately for carriers engaged in intercity service and for those engaged in local service. The carriers of property engaged in intercity service have been segregated into common carriers of general freight, common carriers of commodities other than general freight, and contract carriers.

The common carriers of general freight have been further segregated into (1) carriers operating owned equipment exclusively or principally and (2) those carriers that operated with owned and leased equipment or purchased transportation which reported "Equipment rental--Debit" amounting to 10 percent or more, or "Purchased transportation" expense amounting to 5 percent or more, of their total "Operation and maintenance expenses." Of the 1079 common carriers of general freight engaged in intercity service summarized in table 2, 585 were common carriers of general freight operating with owned equipment exclusively or principally and detailed in tables 3 to 14, inclusive; and 494 were common carriers of general freight operating with owned and leased equipment or purchased transportation and are detailed in tables 15 to 26, inclusive.

The common carriers of commodities other than general freight and the contract carriers were not segregated as were the common carriers of general freight. However, of the 524 carriers of commodities other than general freight summarized in table 27, 216 were carriers operating with owned equipment exclusively or principally and 308 were carriers operating with owned and leased equipment or purchased transportation. Of the 222 contract carriers summarized in table 28, 126 were carriers operating with owned equipment exclusively or principally and 96 carriers operating with owned and leased equipment or purchased transportation.

For the purposes of this publication, carriers of property which derive 25 percent or more of their total operating revenues from local service are classified as local carriers. Passenger carriers reporting both intercity and local and suburban traffic whose average fare is 20 cents or less are classified herein as local carriers. The revenue and number of passengers applicable to charter, lightening or special service are not used in computing the average fare per passenger for this purpose. Carriers engaged exclusively in charter, lightening or special service are classified as local, regardless of the average revenue per passenger.

Local and suburban service, property and passenger, is service performed within a municipality and within the trading and suburban residential area adjacent thereto.

Intercity service includes all services operated beyond the limits defined for local and suburban service.

The amounts shown as "Provision for income taxes" in tables 1, 2, 5, 7 and other similar tables are understated and "Net income" shown in various tables is overstated in that such taxes are reported by corporations only. Income taxes of sole proprietorships and partnerships are based on factors, such as the amount of personal exemptions and the receipt of other income, that are not pertinent to motor carrier operations.

In addition to the summary tables, abstracts are given of selected items of information for 451 individual carriers of property, 86 carriers of passengers, and 15 carriers of both property and passengers having operating revenues over \$1,000,000.

In order that all tables relating to a group of carriers would cover the same number of carriers, it has been necessary to omit 69 carriers of property with total operating revenues of \$24,659,923. Of the 69 carriers omitted, 10 transported wearing apparel, 4 were film carriers, and 13 were oilfield haulers. These 27 carriers, with revenues of \$10,822,575, were not required to report the weight of commodities they transported. The remaining 42 carriers, with revenues of \$13,837,348, filed reports which were either incomplete or not usable in some respect; 18 of these 42 carriers were carriers of general freight reporting revenues of \$4,370,617 and 24 were carriers of commodities other than general freight reporting a total of \$9,466,731 for operating revenues. Of the 69 carriers, 42 were intercity carriers with revenues of \$14,322,093 and 27 were local carriers with revenues of \$10,337,830. Also omitted because of incomplete data was 1 carrier of passengers with total operating revenues of \$190,914.

Table 29 shows that there were 1,473 common carriers and 180 contract carriers of property engaged in intercity service which reported ton-miles of freight carried. This table appears in two parts: A--Common carriers, divided to show the carriers of general freight, the carriers of commodities other than general freight, and totals for all of the common carriers; and B--Contract carriers. Of the 1,473 common carriers, 1,067 were classified as carriers of general freight and 406 were classified as carriers of commodities other than general freight. The revenue, expenses, number of vehicles, vehicle-miles, and tons carried are given for these carriers to permit of useful comparisons.

Attention is called, particularly in the case of carriers of passengers, to the fact that data as to intercity traffic and operations are also found in the tables for carriers classified as engaged in local service and that, to a less extent, data as to local traffic and operations are also found in the tables for intercity carriers.

The Greyhound corporation, a holding and management company which owns the controlling interest in the stock of 22 reporting carriers, also conducts motor carrier operations under the name of Eastern Greyhound Lines of New England (New England Region) and as Teche Lines, Inc. (Southern Region). The data here shown are based on accounting and statistical records maintained by these operating units.

d Credit or other reverse item.

1/ This table covers all reporting carriers of property engaged in intercity service, except carriers engaged in transportation of both property and passengers. Data for the latter carriers, the revenues of which are preponderantly from intercity operations, are shown in tables 57 and 58.

2/ Does not include income taxes applicable to sole proprietorships and partnerships. See introductory statement.

3/ Total expenses (including depreciation, amortization, operating taxes and rents) divided by total operating revenues.

4/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

5/ Includes duplication on account of tonnage received from connecting Class I motor carriers.

6/ Excludes freight revenue (contract service) for which other statistics were not reported as follows: all districts, \$31,801; Eastern district and New England region, \$6,541; Western district and Mid-Western region, \$25,260.

- 4 Credit or other reverse item.
- 1/ This table covers all common carriers of general freight engaged in intercity service and includes both those carriers that operated with owned equipment principally and those carriers that operated with leased equipment or purchased transportation. Detailed data relating to these carriers appear in tables 3 to 14 and 15 to 26. Selected items of individual common carriers of general freight having annual operating revenues over \$1,000,000 appear in table 30.
- 2/ Does not include income taxes applicable to sole proprietorships and partnerships. See introductory statement.
- 3/ Total expenses (including depreciation, amortization, operating taxes and rents) divided by total operating revenues.
- 4/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.
- 5/ Includes duplication on account of tonnage received from connecting Class I motor carriers.
- 6/ Excludes freight revenue (contract service) for which other statistics were not reported as follows: All districts, \$31,801; Eastern district and New England region, \$6,541; Western district and Mid-Western region, \$25,260.

COMMON CARRIERS OF *GENERAL FREIGHT* ENGAGED IN INTERCITY SERVICE
OPERATING WITH *OWNED EQUIPMENT PRINCIPALLY*

TABLES 3 TO 14, INCLUSIVE

These tables are restricted to carriers owning all or most of the equipment operated. They exclude carriers which reported "Equipment rents — Debit" amounting to 10 percent or more or "Purchased transportation" expense amounting to 5 percent or more of total "Operation and maintenance expenses".

Selected items of individual carriers having operating revenues over \$1,000,000 appear in Table 30.

AVERAGES												
Freight revenue per intercity vehicle-mile	\$0.544	\$0.595	\$0.606	\$0.633	\$0.556	\$0.454	\$0.507	\$0.560	\$0.487	\$0.424	\$0.478	\$0.478
Expenses per intercity vehicle-mile 2/	\$0.513	\$0.567	\$0.601	\$0.614	\$0.512	\$0.420	\$0.473	\$0.538	\$0.464	\$0.392	\$0.442	\$0.442
Average miles - Per owned vehicle per annum	45,927	37,882	28,763	36,460	44,911	58,261	59,228	48,813	48,638	60,811	81,040	63,766

1/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

2/ Basic figures include expenses of operating vehicles in intercity and in local service. These expenses are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

COMMON CARRIERS OF *GENERAL FREIGHT* ENGAGED IN INTERCITY SERVICE OPERATING WITH
OWNED AND LEASED EQUIPMENT OR PURCHASED TRANSPORTATION

TABLES 15 TO 26, INCLUSIVE

These tables are restricted to carriers operating with owned and leased equipment or with purchased transportation. They include carriers which reported "Equipment rents — Debit" amounting to 10 percent or more or "Purchased transportation" expense amounting to 5 percent or more of total "Operation and maintenance expenses".

A few of the carriers reported no owned equipment.

Selected items of individual carriers having operating revenues over \$1,000,000 appear in Table 30.

TABLE 15.--SELECTED BALANCE SHEET ITEMS - COMMON CARRIERS OF GENERAL FREIGHT ENGAGED IN INTERCITY SERVICE OPERATING WITH OWNED AND LEASED EQUIPMENT OR PURCHASED TRANSPORTATION

Expenses per intercity vehicle-mile 4/	\$0.459	\$0.463	\$0.605	\$0.501	\$0.434	\$0.414	\$0.469	\$0.515	\$0.397	\$0.446	\$0.502	\$0.502
Average miles - Per owned vehicle per annum ..	52,694	44,799	40,813	39,397	49,853	56,618	64,374	62,313	65,151	54,969	97,645	67,111

1/ Excludes 83,720 vehicle-miles (contract service) for which other statistics were not reported.
2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Excludes freight revenue (contract service) for which other statistics were not reported as follows: All districts, \$31,801; Eastern district and New England region, \$6,541; Western district and Mid-Western region, \$25,260.

4/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

COMMON CARRIERS OF COMMODITIES *OTHER THAN GENERAL FREIGHT* ENGAGED IN INTERCITY SERVICE

TABLE 27

CONTRACT CARRIERS ENGAGED IN INTERCITY SERVICE

TABLE 28

Selected items of individual carriers having operating revenues over \$1,000,000 appear in Tables 31 and 32

- d Credit or other reverse item.
 1/ Does not include income taxes applicable to sole proprietorships and partnerships. See introductory statement.
 2/ Total expenses (including depreciation, amortization, operating taxes and rents) divided by total operating revenues.
 3/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

4/ Includes duplication on account of tonnage received from connecting Class I Motor Carriers.
 5/ Basic figures include expenses of operating vehicles in intercity and in local services which are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

d Credit or other reverses item.

1/ Does not include income taxes applicable to sole proprietorships and partnerships. See introductory statement.

2/ Total expenses (including depreciation, amortization, operating taxes and rents) divided by total operating revenue.

3/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

4/ Basic figures include expenses of operating vehicles in intercity and in local services which are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

- 1/ Includes duplications on account of tonnage received from connecting class 1 motor carriers.
2/ In many instances the ton-miles reported were designated as "estimated."
3/ Basic figures include expenses of operating vehicles in intercity and in local services which are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.
4/ Average load is based on both trips with load and trips without load and is derived by dividing revenue ton-miles by intercity vehicle-miles.
5/ Average haul is derived by dividing revenue ton-miles by tons of intercity revenue freight carried.

^{1/} In many instances the ton-miles reported were designated as "estimated."^{2/} Basic figures include expenses of operating vehicles in intercity and in local services which are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.^{3/} Average load is based on both trips with load and trips without load and is derived by dividing revenue ton-miles by intercity vehicle-miles.^{4/} Average haul is derived by dividing revenue ton-miles by tons of intercity revenue freight carried.

STATISTICS OF CLASS I MOTOR CARRIERS OF PROPERTY FOR THE YEAR ENDED DECEMBER 31, 1948

TABLE 30.—ABSTRACT OF SELECTED FINANCIAL AND OPERATING ITEMS - INDIVIDUAL COMMON CARRIERS OF GENERAL FREIGHT ENGAGED IN INTERCITY SERVICE HAVING OPERATING REVENUES OVER \$1,000,000. - 1948
BY DISTRICT AND REGION

Name of carrier	Number of carriers represented	Principal type of service rendered	Miles of regular routes	Total assets (not including intangible property)	Operating revenues			Total expense (including depreciation, operating taxes, and rents)	Net carrier operating income	Net income after income taxes	Employees 2/		Average number of trucks and truck-tractors used in intercity revenue service during year				Vehicle-miles in intercity revenue service (with load and empty)				Average per intercity vehicle-mile				
					Freight service—intercity		All other				Total	Average number (middle of month count)	Total compensation	Owned	Leased	Purchased transportation	Total	Owned vehicles	Leased vehicles	Purchased transportation	Total	Freight revenue (com. & cont.)	Total expenses 3/

Intercity revenue service per intercity vehicle-mile are therefore subject to qualification, particularly where

d Deficit or other reverse item.
1/ "A" - Regular route - Scheduled service; "B" - Regular route - Nonecheduled service; "C" - Irregular route - Radial service;
"D" - Irregular route - Nonradial service.
2/ Data for employees do not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.
3/ Basic figures include expenses of operating vehicles in intercity and in local service; these expenses are not separable.

Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.
4/ Includes Driveway-miles as follows: All districts, 144,700,821; Eastern district, 141,449,946; Middle Atlantic region, 12,784,631; Central region, 128,665,315; Southern region, 1,424,766; Western district and Southwestern region, 1,826,109.
5/ Not reported.

1/ Includes intracity and in local service; these expenses are not separable. Comparisons are made on a basis of revenue per vehicle-mile.

4/ Basic figures include expenses of operating vehicles in intercity and in local service; these expenses are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

5/ Includes Driveaway-miles as follows: All districts, 15,600,496; Eastern district, 14,078,305; Middle Atlantic region, 1,515,259; Central region, 12,563,046; Western district and Northwestern region, 1,522,191.

d Deficit or other reverse item.
1/ "B" - Regular route - Nonscheduled service; "C" - Irregular route - Radial service; "D" - Irregular route - Nonradial service.
2/ Data for employees do not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

CARRIERS ENGAGED IN *LOCAL* SERVICE

TABLE 33

Selected items of individual carriers having operating revenues over \$1,000,000 appear in Table 34.

d Deficit or other reverse item.

1/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

2/ Basic figures include expense of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

3/ Represents drivers only; other employees included in payroll of Great Lakes Greyhound Lines, Inc.
4/ All employees carried on payroll of Carolina Coach Co.

TABLE 56.--ABSTRACT OF SELECTED FINANCIAL AND OPERATING ITEMS - INDIVIDUAL CARRIERS OF PASSENGERS ENGAGED IN LOCAL OR SUBURBAN SERVICE HAVING OPERATING REVENUES OVER \$1,000,000 - 1948

BY DISTRICT AND REGION

Name of carrier	No. of carriers represented	Miles of regular routes	Total assets (not including intangible property)	Operating revenues					Total expenses (including depreciation, operating taxes, and rents)	Net carrier operating income	Net income after income taxes	Employees 1/		Number of vehicles	
				Passenger revenue		Charter, sightseeing and other special service	All other	Total				Average number (middle of month count)	Total compensation	Average operated in intercity service (regular routes)	Owned at close of year
				Inter-city service (regular routes)	Local service

d Deficit or other reverse item.
1/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.
2/ Basic figures include expenses of operating vehicles in intercity and in local service; these expenses are not separable.
Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

STATISTICS OF CLASS I MOTOR CARRIERS OF BOTH PROPERTY AND PASSENGERS
FOR THE YEAR ENDED DECEMBER 31, 1948

SUMMARY OF SELECTED FINANCIAL AND OPERATING DATA

TABLE 57

Selected items of individual carriers having operating revenues over \$1,000,000
